

Igor Kryukov ♦ Senior Frontend Developer

Tallinn,  Estonia

Profile

Seasoned frontend developer with nearly 8 years of hands-on experience crafting responsive, user-centric web applications for leading B2B SaaS companies (Pipedrive, Flowhaven). Passionate about building clean, scalable code, reusable design systems, fast apps, working with microfrontends in large-scale webapps. A collaborative mentor who bridges ideas with execution — fostering close teamwork among engineers, designers, and product owners to deliver projects that truly perform.
